

**THE WORLD'S BEST PRODUCTS**

## 303 Products – Quality, Customer Service, Concern for the Environment, Satisfied Customers

### The Beginning...

Over 30 years ago, Dennis Praegitzer recognized that the aviation/aerospace industry needed something that did not exist: A protective chemical treatment for rubber and plastics that actually PROTECTED against UV and ozone degradation. After 2 years of working with a top polymer chemist, and after testing over 50 different formulations, one was finally determined to meet the criteria... the world's first UV-screening surface treatment.

This formulation, later renamed 303 Aerospace Protectant™, was sold in aviation/aerospace only until 1985, when it was repackaged for consumers and introduced into the U.S. Marine and RV aftermarkets.

### Today...

303 Products, Inc. manufactures what is generally acknowledged to be the premier quality line of UV screening and protective treatments and finishes and specialized cleaners for rubber, vinyl, plastics, textiles and finished leather. 303's formulations are known as "the products manufacturers recommend most."

303 products are marketed domestically in Automotive, Marine, Casual Furniture, Industrial Fabrics, RV, Trim, Paddling and Hardware. In addition to Canada, 303 products are sold in the European Union, Scandinavia and over 30 other countries.

303 Products, Inc. is headquartered in Palo Cedro, California with shipping from Palo Cedro, Redding and Garden Grove, California; Dacula Georgia; and Brampton, Ontario – Canada.

### Mission Statement...

303 Products, Inc. will provide innovative, needed consumer products that are indisputably the highest quality in their categories. Our products will be unique and fulfill needs that are unmet by the competition. Each 303 product must improve people's lives, save time and money, and do no harm to the environment.

*"303 Products, Inc. always puts the customer first. We recognize that satisfied customers, repeat purchases and success... for 303 and for our partners in distribution... are 100% dependent upon the highest quality possible... on products that REALLY work."*

Dennis A. Praegitzer, President/CEO

## 303 Patio Care Kit

303 Patio Furniture Care Kit  
030420

### 303 CARE KITS

Retail locations give care kits to customers at the time of sale (For example, the sale of a boat, a set of patio furniture). Care Kits are an inexpensive and effective way a) to get the customer started on the right foot for care and cleaning b) to increase customer satisfaction with their purchase and c) to bring the customer back to the store. A 303 Care Kit contains the product samples shown, informational “how-to” pamphlets and a video disk which shows and describes proper care.
