

MAINTENANCE TIPS

For Best Results

After applying **303 Patio Furniture Protectant**, wipe surface COMPLETELY dry.

Vinyl

Spa and barbecue covers and solid vinyl strapping:

Spray on, wipe completely dry.

Vinyl Mesh – (mesh umbrellas and cushions): Apply with a cloth or sponge, wipe completely dry. Do both sides. (Tip: A lighter-weight version of this material is common vinyl window screening. This is a great way to clean your window screens WITHOUT removing them).

Teak

303 Patio Furniture Protectant soaks into teak to prevent drying out. After cleaning, apply **303 Patio Furniture Protectant**. Allow to soak in. After 5 minutes wipe completely dry.

For Continental U.S. destinations only. Price includes UPS charges and handling. Allow 2 weeks for delivery.

Mildew

Soiling and moisture are essential to mildew formation. Keeping a surface clean and dry is crucial to preventing mildew.

Dirty surface + dampness = MILDEW

303-treated surfaces repel dirt, dust and other contaminants on which (in the presence of moisture) mildew can grow. Because **303-treated surfaces** are water-repellent, they dry quicker. Mildew is much less of a problem when you use **303 Patio Furniture Protectant**.

Recommended by and for:

Fabrics play a large and beautiful part in our enjoyment of the outdoor lifestyle.

Today both indoor and outdoor fabrics are available in a wide variety of colors and patterns. They are durable and, with the right care product, require little care.

For detailed information on proper care of today's outdoor fabrics, go to www.303products.com. Click on the MAIN LINK, "All About Outdoor Fabrics".
